## \$20,000 INCREASE FOR WHITE WINGS

Sum Added to District Bill by  
Amendment After Spir-  
ited Debate.

HALF-AND-HALF KILLED

Page Has \$21,000 Added to Item for  
Street Improvements—May  
Pass Bill Today.

An increase of \$20,000 in the lump sum appropriation for "white wings" in the District bill was the center of a spirited fight in the House yesterday, the outgrowth of the investigation over the Nolan \$8 minimum wage bill. After an attempt to increase the appropriation to make possible the payment of \$23.50 a day to the white wings had been knocked out on a point of order made by Representative Page, of North Carolina, an amendment increasing the sum by \$20,000, to the amount estimated for by the Commissioners, was carried on a rising vote.

The day's debate started with a decisive defeat in the committee of the whole for the half-and-half plan. Representative Tinkham's motion to strike out the legislative rider abolishing the half-and-half plan was defeated.

More Street Improvements.  
Representative Page added \$1000 to the item for street improvements by inserting amendments calling for the paving of Champlain street from Florida avenue to Kalorama road, and for the grading of the street running down to the steel plant in Anacostia.

The fight over the Nolan motion to increase the pay of "white wings" was a free-for-all labor battle, in which Representative Page was caught unaware. As a result of the increased amount, it is estimated that "white wings" will receive only \$1.75 a day instead of \$1.50, their present pay.

A plan to conclude the reading of the District bill by a night session, leaving only the final vote for today, was tentatively agreed to yesterday, but finally abandoned. It is expected that consideration of the bill and the final vote will be concluded today.

## FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots.

How to Remove Easily.  
Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.  
Simply get an ounce of othine—double strength—from any druggist, and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.  
Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles—Adv.

## COMMISSION FINDS CAR SERVICE NEAR STANDARD

Hearing at District Building June 14  
to Consider Few Necessary  
Improvements.

Following a several months' study of traffic conditions, J. Kappayne, engineer for the Public Utilities Commission, yesterday reported that the traction companies now are practically complying with the new standard of service proposed by the commission. A few conditions demanding improvement are noted by the engineer.

The new standard proposed by the commission calls for a seating ratio of 100 seats for eighty passengers during non-rush hours, and a standard of seven square feet for standing passengers during rush hours. Public hearings on the new standard will be held at the District Building on Wednesday, June 14.

Mr. Kappayne states that from past observations the companies are at present practically complying with the proposed standard. "With a few exceptions," he said, rush-hour service does at present comply. During the non-rush-hour periods, on some lines, during a short period the service will have to be improved in order to comply."
